Dear Secretary Eagleburger:

I am writing to see if further effort can be made on behalf of Raoul Wallenberg.

President Yeltsin of Russia had mentioned that there might be two American POW's there. I understand nothing has been found. However, I noticed that Frank Wolfenberger was not mentioned among those to be accounted for. His action [illegible] in Hungary in saving some 150,000 Jewish people from the Nazi concentration camps was done at the behest of President Roosevelt so there is a special obligation.

I know there are many people and groups who have some concern but apparently they have not had the kind of clout that has helped some others. Since Wallenberg's case, in contrast to others, has a well known and the Russians should be able to come forth with fuller help and make some restitution according to what I said the records are more available for inspection.

I hope you will make a special effort.

Yours truly,

B6
